Dr. Mark S. Goldman

Distinguished University Professor

Department of Psychology

University of South Florida

4202 East Fowler Avenue, PCD 4118G

Title: Bootstrapping Alcohol/Substance Use Research and Biobehavioral Science

Abstract: It is now well established that lifelong problems with alcohol and substance abuse frequently begin in adolescence, suggesting that the nature of adolescence itself may be a contributing factor. Recent concepts and findings from systems biology and a functional analysis of behavior offer perspectives on what about adolescence may influence the development of these disorders (and others). This talk will review these concepts and report on some recent studies that have shown how these influences might operate.

Biography: Mark S. Goldman is Distinguished University Professor at the University of South Florida (USF). He also served as Associate Director of the National Institute on Alcohol Abuse and Alcoholism from June, 2003, until May, 2006, and as Director of Clinical Psychology Training at USF from 1985 - 1995. He received his Ph.D. in January, 1972, from Rutgers University and has been on the faculty at Wayne State University (1973-1985) and USF (since 1985). He is a Fellow of the American Association for the Advancement of Science (AAAS), the Association for the Advancement of Psychology (APS), and of Divisions 3, 6, 12, 28, and 50 of the American Psychological Association (APA). He is board certified (ABPP) in clinical psychology. In addition to research and clinical work in the addictions field since 1969, Dr. Goldman has served as Psychology Field Editor for the *Journal of Studies on Alcohol*, consulting editor (masthead) of a number of APA journals, member and then chair of the Psychosocial Research Review Committee of the National Institute on Alcohol Abuse and Alcoholism (NIAAA), member of NIAAA's National Advisory Council on Alcohol Abuse and Alcoholism, chair or member of a number of NIAAA portfolio review committees, member of the NIAAA research priority committee, co-chair (with Father Edward A. Malloy, president of the University of Notre Dame) of the NIAAA subcommittee on College Drinking, member of the Board of Professional Affairs of the APA, member of the Task Force on Psychological Intervention Guidelines (APA), President of the Division on Addictions for APA, and member and then chair of the psychosocial advisory review group for the Alcoholic Beverage Medical Research Foundation. In 1992, Dr. Goldman received a MERIT Award from the NIAAA. In 2010, he was elected President of the Research Society on Alcoholism, and served as president of this 1800 member interdisciplinary organization from 2011-12. Dr.

Goldman's major research interest is in alcohol expectancies and cognitive mediators of alcoholism risk and the development of drinking and risk for drinking in children, adolescents, and young adults (over 300 articles and presentations).
